To Everyone Living in Japan

About our Japan Resident Rates

We want more people living in Japan to enjoy skiing and snowboarding.

Every season, many guests travel from overseas to enjoy Japan's snow, and we are truly grateful for that. At the same time, we would love for everyone who lives in Japan to head to the mountains more easily and more often. With that in mind, this season we are offering special rates for residents of Japan.

This is not simply about offering a lower price. It is our way of encouraging you to enjoy the snowy mountains that are right on your doorstep.

Please note

1 Rates are confirmed at the shop

The Japan Resident Rate is not confirmed at the time of online booking. It will be applied after your residency is verified at the rental shop.

2 Photo ID required for each person

Available to all residents of Japan, regardless of nationality. Everyone who wishes to use this rate must present a valid photo ID showing their current address in Japan.

3 One ID does not cover the group

We cannot apply this rate to a whole group based on one representative's ID. Each person will be verified individually.

*** If residency cannot be verified, Regular Rates will apply.**
